MEMO FOR RECORD

SUBJECT: SOURCE 021/UTILITY ASSESSMENT "M

- 1. (S/NF) Reference "Frontload" portion of Sessions conducted on 10 and 14 April 1987 respectively.
- 2. (S/NF) Front loading of session with the caution that "(you) will run into a little static out there", "that this target may take several sessions", "there are several intelligence questions don't expect to answer them all on the first trip out" appears to have had a negative impact on the source. It appears the source's subconscious complied nearly literally with the frontload tasking.
- 3. (S/NF) In lieu of the cautionary frontloading, a more positive approach may be in order. For example, "This is a new target Describe the nature and purpose of the intelligence question at coordinates (or subject contained in the envelope).
